Diplomacy and Global Governance

International Symposium

The international symposium **Diplomacy and Global Governance** aims to discuss the intersections between national and international interests in the process of negotiating international standards and rules.

The primary focus of the symposium will be on the way international organizations and conferences have defined these standards, the role of governmental and non-governmental players in this process and the way different states have handled these globally defined rules.

To approach these questions in an innovative way, a body comprising leading scholars from universities as well as researchers from participating editing projects of diplomatic documents will be convened. With 29 delegations from various countries and representing the main edition projects of diplomatic documents, participants will build a multifaceted and unique pool of historical and historiographical knowledge.

The Diplomatic Documents of Switzerland cordially invite you to the International Symposium **Diplomacy and Global Governance**.

The symposium is part of the 12th International Conference of Editors of Diplomatic Documents.

PROGRAM: FRIDAY OCTOBER 4, 2013
